VELVET PULSE

VLVT // PLSE

VLVT//PLSE came to life in the charged hours following the temple burn at LoveBurn, when Kirbie took the mic for the first time. What began as a single moment became a project, and a project became a mission — to build musical journeys that transform dancefloors into shared rituals of movement, emotion, and connection. Justin's architectural instinct behind the decks and Kirbie's rare contralto voice don't just complement each other. **They complete the pulse.**

JUSTIN / AKA COASTIER

Raised in Belgium during the emerging 90s rave scene and trained in piano from a young age, Justin arrived at electronic music from both ends — feeling it in rooms before he understood it, then learning to build it from the inside out. His sets move with architectural precision, weaving through genres and energy levels to create tension, release, and euphoria. An emerging Beatport artist with releases on Kitu Records, he has performed at Burning Man and iconic venues across Tulum, Chicago, and beyond.

KIRBIE

Kirbie's contralto voice brings a rare warmth to the world of electronic music. Raised in Canada singing country music around campfires, she later sang in a rock band on a tiny Caribbean island before finding her way into the electronic music scene in Tulum. Sultry, rich, and deeply felt, her vocals don't sit on top of a set — they move through it, bringing a fun, feminine energy and pulling listeners into presence and emotion. She describes her sound as *sultry and ethereal* — grounded enough to feel, light enough to carry you somewhere else.

Technical Rider

STAGE & SOUND

DJ Setup

Pioneer CDJ-3000 x2 (or CDJ-2000NXS2)
 Pioneer DJM-900NXS2 mixer preferred
 Denon SC6000 accepted

Microphone

Shure SM58 or Beta 58A (wired)
 Dedicated vocal channel on desk
 Light hall reverb on vocal send

Monitor Mix

Separate IEM mix for vocalist
 OR floor wedge monitor stage left
 Kick & bass prominent in mix

Stage Space

Minimum 2m x 2m behind DJ booth
 Vocalist access to DJ booth
 Clear sightlines to crowd

Lighting

Front-fill for artist visibility
 No strobe (unless pre-agreed)
 Moving heads / haze welcome

Advance

30-min soundcheck required
 Full tech spec sheet available on request
